

ENVIRONMENTAL HEALTH AND SAFETY (EHS)

helps to create a safe and healthful environment. Made up of six groups, EHS works collaboratively university wide to advise on compliance with federal and state standards, codes, and regulations. We offer training and support services to help ensure a safer university experience for everyone:

BUILDING ENVIRONMENTAL SCIENCE GROUP:

- Asbestos program management
- Drinking water monitoring
- Lead program management
- Indoor air quality
- Water intrusion & mold mitigation

COMPLIANCE & ENVIRONMENTAL GROUP:

- Chemical inventory
- Environmental compliance
- Integrated pest management program

HAZARDOUS MATERIALS GROUP:

- Chemical safety
- Hazardous material disposal
- Radiation and laser safety

OCCUPATIONAL HEALTH & SAFETY GROUP:

- Safety consults
- Ergonomics assessments & lending library
- Hazard assessments
- Incident investigations
- OSHA compliance
- Workplace inspections
- Confined space entry program
- Respiratory protection program

RESEARCH SAFETY GROUP:

- Biosafety program
- DEA controlled substances program
- Laboratory compliance consults
- Research animal occupational safety program

UNIVERSITY FIRE MARSHAL GROUP:

- AED and fire extinguisher programs
- Campus fire drills management
- Fire code interpretations and technical opinions
- Fire/ life safety building inspections
- Fire protection systems management
- Fire safety management for campus events
