

SAFETY DATA SHEETS

are informational sheets for every chemical, chemical compound, and chemical mixture within a workplace. The information on each sheet includes safe occupational use instructions and first aid protocols. SDS sheets, formerly known as MSDS sheets, are often kept within a bright yellow or white binder or digitally. In the event of an emergency, SDS sheets can be referenced for response protocols. Always contact your supervisor and EHS during an incident.

SECTIONS IN AN SDS

- Section 1: Identification
- Section 2: Hazard(s) identification
- Section 3: Composition/ information on ingredients
- Section 4: First-aid measures
- Section 5: Fire-fighting measures
- Section 6: Accidental release measures
- Section 7: Handling and storage
- Section 8: Exposure controls/ personal protection
- Section 9: Physical and chemical protection
- Section 10: Stability and reactivity
- Section 11: Toxicological information
- Section 12: Ecological information
- Section 13: Disposal considerations
- Section 14: Transport information
- Section 15: Regulatory information
- Section 16: Other information

WHAT TO DO!

- Know the physical or digital location of your SDS book.
- Always wear required PPE!
- In the event of a chemical spill call EHS!
- If exposed, reference section 4 (first aid) in the SDS and get to an emergency wash station! Contact your supervisor and EHS (541-346-3192)!
- In an emergency, call **911** and **UOPD** (541-346-2919) for immediate assistance

Always wear required PPE!

Know the location of the SDS book!

Know the location of safety equipment and how to operate it!
