

SAFETY AND RISK SERVICES

assists the University of Oregon in safeguarding life, human health, and the environment, as well as reduces the university's vulnerability to events that may prevent it from achieving its core mission of instruction, research, and public service. Groups within SRS include:

ENVIRONMENTAL HEALTH AND SAFETY

- Promotes compliance and responsible behaviors as exemplified and required by health, safety, environmental, and fire prevention standards, codes, regulations, and university programs.

EMERGENCY MANAGEMENT AND CONTINUITY

- Protects the university's ability to meet its mission of teaching, research, and public service that is vulnerable to any emergency resulting in the loss of vital resources such as buildings, equipment, infrastructure, technology, or personnel.

LOCATION INNOVATION LAB

- Provides wide-ranging services and products such as behind-the-scenes data, analysis and applications, publicly-facing maps and other products and applications that serve campus.

RISK MANAGEMENT AND INSURANCE

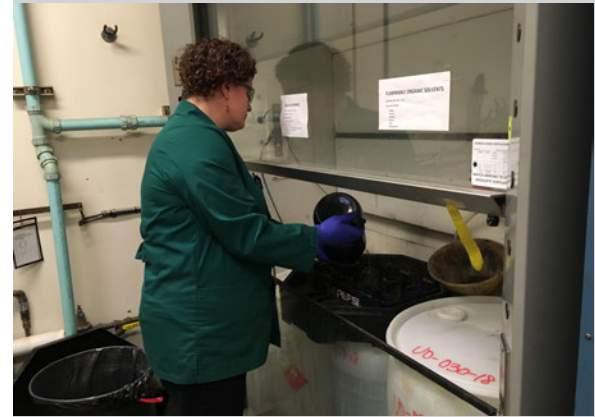

- Protects the university's assets by identifying and analyzing risk exposures, controlling those exposures, mitigating risks, financing losses, and implementing and monitoring risk-management processes.

UNIVERSITY OF OREGON POLICE DEPARTMENT

- Helps to create an exceptionally safe, secure campus for students, faculty, and staff to focus on our core mission of instruction, research, and public service.

UO and city staff responding to a hazard.
